OBJECTIVE

Seeking an entry-level opportunity to apply my technical knowledge, problem-solving abilities, and analytical skills in a dynamic organization. Eager to contribute to innovative projects, continuously learn new technologies, and grow as a professional while delivering impactful solutions.

EDUCATION

- **Sri Venkateswara College of Engineering and Technology** *2022-2026*
  Btech in Computer Science Chittoor,India
  - GPA: 8.70/10.00

EXPERIENCE

- **IIIT Tirupati & Blackbuck Engineers (APSCHE)** *May 2025 – July 2025*
  Full Stack Development Intern Andhra Pradesh, India
  - Successfully completed an 8-week Full Stack Development internship and received an "Excellent" performance rating.
  - Collaborated with mentors and team members to develop and enhance web-based applications.
  - Applied problem-solving and analytical skills to implement project requirements and improve functionality.
  - Participated in software development, testing, documentation, and project review activities.

PROJECTS

- **Distributed System using Spring Boot Microservices** *2025 – 2026*
  Spring Boot, Microservices, Eureka Server, Config Server, API Gateway, MySQL
  - Developed a distributed System using Spring Boot microservices architecture.
  - Implemented service discovery using Eureka Server and centralized configuration management using Config Server.
  - Configured API Gateway for request routing, load balancing, and secure communication between services.
- **Real-Time Employee Mode Tracker** *2025*
  Java, MongoDB
  - Developed an employee tracking application to monitor and manage employee work modes in real time.
  - Implemented CRUD operations and efficient data storage using MongoDB.
  - Designed a modular Java-based architecture for handling employee status updates and retrieval.
  - Improved data accessibility and reporting through structured database operations.
- **Bank Management System** *2024*
  Java, OOP
  - Built a console-based banking application supporting account creation, deposits, withdrawals, fund transfers, and balance inquiries.
  - Implemented mini-statement functionality to maintain and display transaction history.
  - Added input validation and exception handling to improve system reliability and user experience.

SKILLS

- **Languages:** Java, Python, JavaScript, SQL
- **Frontend:** HTML, CSS, JavaScript, React, Bootstrap
- **Backend:** Spring Boot, JDBC, REST APIs, Microservices
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Postman, IntelliJ IDEA, VS Code
- **Core Concepts:** DSA, OOP, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

- ServiceNow Certified System Administrator (CSA) – ServiceNow (2025)
- Full Stack Foundation - Core Java – L&T EduTech (2024)
- UI and UX Developer – L&T EduTech (2024)
- Young Python Professional – Infosys Springboard (2023)
- Java (Basic), Python (Basic), Problem Solving (Basic) – HackerRank (2023)
- Responsive Web Design – FreeCodeCamp (2025)
